

JOEL MATHEW K A

Kadamparambil House, Moolampilly, Ernakulam, Kerala, India — +91 8590814137 —
joelmathew2212@gmail.com — LinkedIn — GitHub — Portfolio

Career Objective

Final-year Computer Science & Engineering student with a strong foundation in programming (C, Python), web technologies (HTML, CSS, SQL), and tools such as Git and Flutter. Passionate about frontend development, leadership, and collaborative project execution. Seeking opportunities to apply technical and interpersonal skills in real-world software development roles.

Education

B.Tech, Computer Science & Engineering

Saintgits College of Engineering, Kottayam, Kerala

CGPA: 6.52

(Expected Graduation: June 2026)

Higher Secondary, St. Albert's Higher Secondary School

Kerala, India

Marks: 92%

Secondary School, SBOA Public Senior Secondary School

Kerala, India

Marks: 91%

Skills

Programming Languages: C, Python

Web Technologies: HTML, CSS, SQL

Tools & Frameworks: Git, Flutter, OpenCV, YOLOv5, Raspberry Pi, Angular

Areas of Interest (Technical): Frontend Development, Web Design, UI/UX, Artificial Intelligence

Projects

Dhristhi – AI-Powered Eyewear for Blind People (Final Year Project)

Technologies: YOLOv8, Python, OpenCV, Raspberry Pi

- Real-time object detection
- Facial recognition and memory
- Currency detection
- Emergency SOS system
- Scene description for environmental awareness

Skillink – Freelancer-Employer Networking Platform (Mini Project)

Technologies: Python (Flask), MySQL, HTML/CSS/JavaScript

- Dual dashboard for freelancer and employer
- Profile management with certification uploads

- Interactive calendar for availability
- Employer search with filters, reviews, and rating system
- Direct communication integration

Daily Planner – Personalized Task Management App

Technologies: HTML, CSS, JavaScript, LocalStorage

Features: Personalized scheduling, calendar events, reminders, and responsive design.

Smart Bill Split – Intelligent Expense Calculator

Technologies: HTML, CSS, JavaScript

Features: Expense splitting, automatic tax computation, and real-time updates.

Travel Booking – Online Reservation System

Technologies: HTML, CSS, JavaScript

Features: Accommodation booking, itinerary management, and responsive UI.

Internships

- **Machine Learning & Artificial Intelligence** — Keltron (Aug 2022) Hands-on experience in supervised and unsupervised ML algorithms, and AI model basics.
- **Google Flutter App Development** — PACELAB, Kochi (July 2024) Developed cross-platform mobile apps using Flutter; built UI components and integrated APIs.
- **Web Development (Angular)** — Nest Digital, Kochi (May–June 2025) Designed a responsive webpage using Angular, focusing on component-based UI and data rendering.

Certifications & Courses

- HackS'US Edition IV — Rajagiri School of Engineering & Technology (March 2025) — Web Development, Leadership
- Advertising — Assumption College, Changanacherry (Jan 2025) — Marketing
- Young Innovators Program 7.0 — K-DISC (Nov 2024) — Design Thinking, Stakeholder Engagement
- Structured Query Language — University of Colorado Boulder (Sept 2024) — SQL
- Cybersecurity Workshop — RAGAM, NIT Calicut (March 2023) — Cybersecurity Fundamentals
- Fundamentals in Python Programming — Saintgits College of Engineering (Oct 2022)

Activities & Leadership

- Team Lead — S6 Mini Project
- Volunteer — Tech Fest, Saintgits College
- NSS Member — School Level
- Event Head — College Fest

Areas of Interest

- Creating random web pages and experimenting with design ideas
- Listening to tech talks and startup podcasts
- Exploring open-source projects and developer communities
- Keeping up with new technologies and AI trends
- Participating in hackathons and tech events
